

will be SUDEP '16 / International Sustainable Development on Economy and Planning Conference 2016, held in Istanbul, on April 29–30, 2016. The abstract submission is open now and we invite researchers and practitioners to submit original work for presentation at the conference.

As an interdisciplinary perspective is of more importance on development, it is obvious that economists, architects, engineers, social science specialists, planners, environmentalists and policy makers are to work together to build a sustainable future.

To develop the alternative solutions become significant, day by day. Today, energy saving and eco-friendly building approaches are the most important development factors. Planning has a key role to play in ensuring that these solutions as well as new materials and processes are incorporated in the most efficient manner.

PUBLICATION

All submitted papers are subject to double blind peer review. Conference proceedings are going to be available on DVD as e-book and DAKAM's digital library with an ISBN number before the conference and will be sent to be reviewed for inclusion in the "Thomson & Reuters Web of Science's Conference Proceedings Citation Index" (CPCI) and Google Scholars.

AGENDA
