Professor Stuart D. B. Picken
ECSEE2015 Conference Chair:
Chair, Japan Society of Scotland
Chair, IAFOR IAB

Professor Picken is the Chairman of the IAFOR International Advisory Board. The author of a dozen books and over 130 articles and papers, he is considered one of the foremost scholars on Japan, China, and Globalization in East Asia. As an academic, Professor Picken has devoted more than 30 years to scholarship in Japan, notably as a Professor of Philosophy at the International Christian University in Tokyo, where he specialized in ethics and Japanese thought, and as International Adviser to the High Priest of Tsubaki Grand Shrine (Mie prefecture). He has also served as a consultant to various businesses, including Jun Ashida Ltd., Mitsui Mining and Smelting Corp., Kobe Steel, and Japan Air Lines. In 2008, the Government of Japan awarded Professor Picken the Order of the Sacred Treasure for his pioneering research, and outstanding contribution to the promotion of friendship and mutual understanding between Japan and the UK. The honour is normally reserved for Japanese citizens and is a mark of the utmost respect in which Professor Picken is held by the Japanese Government. More recently, in 2012 he was invited to London to attend a reception at the Japanese Embassy, hosted by Emperor Akihito and Empress Michiko as an expression of their gratitude towards Britons who had helped support Japan after the 2011 Tohoku earthquake and tsunami. Professor Picken helped organize fundraising efforts through both the Japan Society of Scotland, of which he is the chair, in the UK, and IAFOR in Japan. Although now resident in Scotland, Professor Picken maintains his interests in Japan, as Chair of the Japan Society of Scotland, and through the IAFOR IAB. He is also the Chairman of the Academic Board of New College, Birmingham. He lives near Glasgow with his wife and two children.

Conference Theme and Streams

Conference Theme: "Power and Sustainability"

Sustainability remains as a powerful ideal that acts as a driving force in relation to the pressing concerns of energy and the environment. Its proponents often protest their lack of power to effect change because of the control systems already in place in the form of tax-evading multinational corporations, banks that support them, and governments that turn a blind eye to malpractice. Is the claim to lack of power as serious as is alleged, or are there other approaches that have not been tried? Advocates of sustainable growth surely have the responsibility to search for alternative avenues and corridors of power? The abolition of slavery in the British Empire, for example, was the work of one man who resisted and confounded the argument that no economy could survive without it. This conference will take the concepts and lenses of power and sustainability as we seek multidisciplinary solutions and work together towards the creation of a sustainable world. We look forward to seeing you (again) in Brighton in 2015.
