

The 2018 International Conference on Engineering, Science and Applications (ICESA 2018)
22nd to 24th August 2018
Waseda University, Tokyo, Japan

Dear Colleagues,

Hi, this is ICESA local committee co-chair – Rei Yamashita. We are pleased to announce that The 2018 International Conference on Engineering, Science and Applications (ICESA) will take place at Waseda University, Tokyo, Japan on August 22–24, 2018.

Based on the 2017 Tokyo International joint Conference that received 416 submissions from 45 countries, with an acceptance rate of approximately 75.72% and a registration rate of around 85.08% of the accepted papers, the 2018 Waseda Tokyo International joint Conference thus is expected to attract more worldwide participants than in 2017. ICESA is an international platform for scholars, researchers and practitioners to discuss interdisciplinary research and practices in the fields of Engineering, Science and their applications. Therefore, during the three-day conference, all participants will have plenty of opportunities for exchanging ideas, findings and the latest research results, engaging in many academic and industry events, and meeting peers from different countries. We believe that participants can share their viewpoints from different perspectives and be exposed to a cross-domain communicating and learning atmosphere through the interdisciplinary joint conferences. For detailed <http://icesa2018.gaics.org> information regarding ICESA 2018, please browse the official website which has been activated to the public since the early December, 2017.

Abstract/Paper Submission Due Date: April 10, 2018

Sign Up and Submit Now!

Notably, we will send all conference proceedings to ISI office to be possibly indexed in the Conference Proceedings Citation Index (CPCI). Please note that ISI office welcomes all submissions but there is no guarantee of inclusion in CPCI. Inclusion in CPCI is selective and competitive, while not all-inclusive.

Looking forward to seeing you at Waseda University in Tokyo.

Sincerely,

Kassem Saleh, Ph.D.
Conference Chair, ICESA 2018
Professor and Coordinator of Engineering and Science Program,
Kuwait University (Kuwait)

Hiroataka Matsuoka, Ph.D.
Local Committee Chair of ICESA 2018
Professor, Faculty of Sports Sciences

Waseda University, Tokyo, Japan
