

CONF/CFP: BEYOND 2020 – World Sustainable Built Environment conference
9th to 11th June 2020, Gothenburg, Sweden
Abstract submission deadline: 14th August 2019

BEYOND 2020 is considered to be one of the world's most prestigious conferences and forums in the field of sustainable built environment. The mission of the 2020 edition of the conference (BEYOND 2020) is to link the global building sector to the UN Sustainable Development Goals.

CALL FOR ABSTRACTS IS NOW OPEN. Abstracts (max 300 words) can be submitted until 14th AUGUST 2019 through the conference website . Abstracts must address one of the following conference scientific topics.

BEYOND 2020 scientific topics:

Social inclusion for liveable societies
Energy systems for the future
Climate change mitigation and adaptation in the built environment
Urban metabolism and circularity
Health, comfort and well-being for a better life
Housing for all
Resilient transport systems and mobility solutions
Architectural morphology
Technology and material innovations
Promoting green and blue structures for sustainable living environments
Transformation and conservation
Sustainable management of terrestrial and inland ecosystems
Urban planning and design
Urban transition – from the current state to a future state
Design for hope
