

CERN Administrative Student Program 2023–24 for International Students:

Applications are invited to apply for CERN Administrative Student Program 2023–24 in Switzerland. All International Students from all over the world are eligible to apply for Fully Funded Internship Program.

The program is taking place in Switzerland and interns will have the opportunity to spend 2 to 12 months in Geneva, Switzerland. The CERN internship program provides opportunities for undergraduate and master's students, where they can gain experience in the world's most organized management platform. There is No Application Fee Required for the CERN Administrative Student Program.

If your background is related to Translation, Human Resources, Advanced Secretarial Work, Business Administration, Logistics, Law, Finance, Accounting, Library and Information Science, Engineering Management, Science Communication, Education, Audio Visual, Communication and Public Relations, Psychology, Audit, Engineering is the best opportunity to do an internship at CERN Switzerland again.

The CERN Fully Funded International Internship Program will cover all expenses of selected candidates.

Interns will be given the opportunity to spend 2 to 12 months in the European Organization for Nuclear Research so that they can gain practical knowledge of their course studies and hone their skills in their respective fields. Candidates do not have to pay anything. In addition, applicants will be entitled to a monthly allowance as well as 2 to 5 days of paid leave per month.

In Europe 2023, CERN offers a unique opportunity for students pursuing disciplines related to fully funded program administration to work on projects that will change the world. CERN, the world's leading organization, offers students the opportunity to get acquainted with highly funded internships as well as highly complex administrative methods. CERN physicists and engineers discover the basic principles of the universe with the world's most advanced scientific instruments. CERN interns will gain extensive experience through their work at CERN which will benefit their career as they will gain a lot of knowledge in management and gain the confidence they will need in the future.
